Perkins Flower Garden News 1937

Dear Friend:-

Instead of our usual catalog giving our complete list of perennial and annual plants we are, for this season, sending you only a partial list, containing some of our best items. However, we have many other varieties.

The two new phlox, Daily Sketch (salmon with a crimson eye), and Border Queen (watermelon pink), made a good showing in spite of the severe drouth. The new dwarf asters did well and we recommend them. We have the varieties, Marjorie, Victor and Countess of Dudley.

Among the annuals we wish to call special attention to the tried marigolds, Guinea Gold and Yellow Supreme. We will also have the new varieties. We found the Balcony Petunias made a good showing as bedding plants. Viola Arkwright Ruby is a charming red viola. We have been experimenting with the pleasing viola, Lavender Gem, for several years and now have sufficient stock to be able to offer it for sale. Petunia, Sutton's Blue Bedder, is a satisfactory variety, although it varies slightly in the shades of blue.

SPECIAL OFFER

We have a small surplus of the red Siberian Coral Lily, which are offered at the attractive price of 75 cts. per dozen as long as our supply lasts.

We have a fine collection of perennial plants suitable for edging or the rock garden.

PERKINS FLOWER GARDENS

is located one mile from St. Paul east city limits on St. Paul-Stillwater Road (Highway 212)

Telephone Tower 4424
